### **COMMUNITY FIRST BANCORPORATION ANNOUNCES 2018 SECOND QUARTER FINANCIAL RESULTS**

---

**Walhalla, SC** (June 30, 2018) – Community First Bancorporation, Inc. (CFOK), parent company for Community First Bank, recorded total consolidated earnings of \$454,000 for the second quarter of 2018, compared to total consolidated earnings of \$200,000 for the second quarter of 2017. Fully diluted earnings per common share for the second quarter of 2018 totaled \$.10 per common share, compared to \$.04 per common share for the second quarter of 2017.

The Company earned \$794,000 for the first six months of 2018, compared to \$388,000 for the first six months of 2017. Fully diluted earnings per share for the first six months of 2018 totaled \$.17 per share compared to \$.07 for the first six months of 2017. The increase resulted from an increase in net interest income of 9.6% for the first six months of 2018 compared to 2017.

Total assets at June 30, 2018, were \$376,638,000, compared to \$353,769,000 at June 30, 2017, a growth rate of 6.46% year over year. At June 30, 2018, total gross loans and deposits were \$277,294,000 and \$330,067,000, respectively, and provided a loan-to-deposit ratio of 84.01%. This compared to loans of \$232,514,000, deposits of \$316,989,000 and a loan-to-deposit ratio of 73.35% at June 30, 2017.

During the 12 months ended June 30, 2018, gross outstanding loans grew by \$44,780,000, or 19.26%. Net interest income grew 11.50% in the second quarter of 2018, compared to the second quarter of 2017, and net income grew by 127% in the second quarter of 2018, compared to the second quarter of 2017.

“The Company’s loan demand and credit quality remain very strong. We also experienced solid growth in our core deposits,” said President and CEO Richard D. Burluson, Jr. “We believe our product offerings will continue to support growth of our deposits to fund our loan demand.”

The Company's strategic plan calls for the continued expansion of the Bank's markets through the growth and transition of Loan Production Offices (LPOs) established over the past two years into full-service offices. This transition is expected to help increase deposits and identify consumer lending opportunities in these markets. The Bank currently operates LPOs in Greenville and Fort Mill, South Carolina, and in Concord and Charlotte, North Carolina.

The Bank's asset quality remained high during the second quarter of 2018 as its nonperforming assets, comprising nonperforming loans and foreclosed assets, declined to \$1,894,000 at June 30, 2018, compared to \$2,358,000 at June 30, 2017, a reduction of 19.68%. The Bank experienced net loan recoveries of \$16,000 during the first half of 2018. At June 30, 2018, the allowance for loan losses totaled \$3,411,000 or 1.23%, of outstanding loans, compared to \$3,208,000, or 1.38%, of outstanding loans at June 30, 2017.

"Our capital ratios remain strong and exceed levels required by regulatory authorities," noted Burleson. "We will continue to fund our allowance for loan losses, which is driven by our loan growth.

"The Company has continued to increase service offerings for our customers over the past year. Our insurance subsidiary, Community First Financial Services, established in 2017, offers property and casualty, health, term life, recreational vehicle, disability, travel, identity theft and other insurance in the Bank's markets. Coverages are offered by many A++-rated insurance companies. Our upgraded business and personal Internet banking and mobile banking applications have made banking with Community First Bank safer and more convenient than ever before."

Community First Bank operates seven full-service financial centers: two each in Seneca and Anderson and single locations in Williamston, Walhalla and Westminster, South Carolina, and the LPOs mentioned above. The Bank has acquired a property in Greenville, South Carolina, for a future branch site and hopes to make application for this branch in the third quarter.

#### ***CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS***

This News Release contains forward-looking statements, which can be identified by the use of words such as "estimate," "project," "believe," "intend," "anticipate," "plan," "seek," "expect," "will," "may" and words of similar meaning. These forward-looking statements include, but are not limited to statements of our goals, intentions and expectations; statements regarding our business plans, prospects, growth and operating strategies; statements regarding the asset quality of our loan and investment portfolios; and estimates of our risks and future costs and benefits.

These forward-looking statements are based on our current beliefs and expectations and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control. In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. The Company is under no duty to and do not undertake any obligation to update any forward-looking statements after the date of this News Release.

The following factors, among others, could cause actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statements:

- We may not be able to implement aspects of our growth strategy;
- Future expansion involves risks;
- New bank office facilities and other facilities may not be profitable;
- Acquisition of assets and assumption of liabilities may expose us to intangible asset risk, which could impact our results of operations and financial condition;
- The success of our growth strategy depends on our ability to identify and retain individuals with experience and relationships in the markets in which we intend to expand;
- We may need additional access to capital, which we may be unable to obtain on attractive terms or at all;
- Our estimate for losses in our loan portfolio may be inadequate, which would cause our results of operations and financial condition to be adversely affected;
- Our commercial real estate loans generally carry greater credit risk than one-to-four family residential mortgage loans;
- Our concentration of construction financing may expose us to a greater risk of loss and hurt our earnings and profitability;
- Repayment of our commercial business loans is primarily dependent on the cash flows of the borrower, which may be unpredictable, and the collateral securing these loans may fluctuate in value;
- We continue to hold and acquire other real estate, which has led to operating expenses and vulnerability to additional declines in real property values;
- A significant portion of our loan portfolio is secured by real estate, and events that negatively impact the real estate market could hurt our business;
- Future changes in interest rates could reduce our profits;
- Strong competition within our market areas may limit our growth and profitability;
- Our stock-based benefit plan will increase our costs, which will reduce our income;
- The implementation of stock-based benefit plans may dilute your ownership interest;
- We are subject to extensive regulation and oversight, and, depending upon the findings and determinations of our regulatory authorities, we may be required to make adjustments to our business, operations or financial position and could become subject to formal or informal regulatory action;
- We are subject to more stringent capital requirements, which may adversely impact our return on equity, require us to raise additional capital, or constrain us from paying dividends or repurchasing shares;
- We depend on our management team to implement our business strategy and execute successful operations and we could be harmed by the loss of their services;
- The value of our deferred tax asset could be significantly reduced if corporate tax rates in the U.S. decline or as a result of other changes in the U.S. corporate tax system;
- We may not be able to utilize all of our deferred tax asset;
- The fair value of our investments could decline;
- Liquidity risk could impair our ability to fund operations and jeopardize our financial condition, results of operations and cash flows;
- Changes in accounting standards could affect reported earnings;
- A failure in or breach of our operational or security systems or infrastructure, or those of our third party vendors and other service providers or other third parties, including as a result of cyber-attacks, could disrupt our businesses, result in the disclosure or misuse of confidential or proprietary information, damage our reputation, increase our costs, and cause losses;
- Our stock price may be volatile, which could result in losses to our shareholders and litigation against us;
- The trading volume in our common stock is lower than that of other larger companies; future sales of our stock by our shareholders or the perception that those sales could occur may cause our stock price to decline;
- There may be future sales of additional common stock or preferred stock or other dilution of our equity, which may adversely affect the market price of our common stock;

- We may issue additional debt and equity securities or securities convertible into equity securities, any of which may be senior to our common stock as to distributions and in the event of liquidation, which could negatively affect the value of our common stock;
- Negative public opinion surrounding our company and the financial institutions industry generally could damage our reputation and adversely impact our earnings.
